## 2. SETTING UP IN TRANSITION

Transition is the big fenced off area for TRYathletes' bikes and is the change-over point between legs of the TRYathlon.

### WHAT TO DO:

1. Find your age group's row, identified by coloured flags (as per your swim cap) with age groups written on them.
2. Find a space to place your gear, within your age group row.
3. There will be a string line on the ground, running from one end of the row to the other. Position your bike (lying down or using the bike stand) so that the front wheel is facing out and the back wheel is up to line. Place any additional gear to the side of the bike.
4. Help Team members will be there to assist you.
5. Familiarise yourself with the Transition entry and exits and look for a marker (such as a sign or bright towel) to help identify where your gear is positioned.
6. Please be respectful of other TRYathlete's gear while in Transition.
7. Once you are set up, leave the Transition area, head to the Event Village and wait for the Event Briefing.

### PLEASE LEAVE THE FOLLOWING IN TRANSITION:

#### To Leave In Transition *(Except Team Swimmers)*

- ☐ Official event T-shirt with bib number sticker on the front. *(Except Team Cyclists who'll be wearing it)*
- ☐ Bike with bib number sticker attached to the handle bars.
- ☐ Helmet with bib number sticker attached to the front. Helmets are compulsory for the bike leg.
- ☐ Closed in running shoes and socks. Shoes are compulsory for both the bike and run legs.
- ☐ Towel.
- ☐ Shorts to cycle and run in.
- ☐ Drink bottle.
- ☐ Any medication you may need use of during the TRYathlon (eg. asthma inhaler)
- ☐ Some way of identifying your bike in the Transition Area. Something bright is a good idea; you could use a brightly coloured towel on your bike seat or handlebars.
- ☐ A box or something similar to put your things in next to your bike.

#### To Keep With You *(Except Team Cyclists)*

- ☐ Swimming togs.
- ☐ Aqualine Swim cap.
- ☐ Swimming goggles (optional).
- ☐ Something warm to wear until you start the swim. Please note, this cannot be your official event T-shirt as you are required to wear this for the cycle and run leg so it needs to be left with your bike in Transition.
- ☐ Shoes to wear until you start the swim. Please note, these cannot be your closed in running shoes as you are required to wear these for the cycle and run leg so they need to be left with your bike in Transition.
- ☐ Sun cream and a hat.

## TOILETS

Toilets will be available on site.

## LOST KIDS

The Lost Kids tent is located next to the Admin Tent in the Event Village. Our Help Team will be on hand to care for any lost children – this is the best spot to find lost parents too!

We recommend that if you have other children with you on the day who are not participating, that you write your mobile number on their arm in case they get lost.

Any lost property that is handed in will be held at the Lost Kids Tent.

## FIRST AID

A First Aid station, staffed by Paramedics, is located next to the Lost Kids Tent in the Event Village.

First Aiders and paramedics will also be on the course.

If you experience a medical problem on course tell a Help Team member and they will provide assistance.

# RULES AND SAFETY

Please familiarise yourself with the following rules to ensure you and all other TRYathletes and supporters have a great day out.

- Follow the directions given to you by Team Leaders, Help Team members and other event officials.
- Remain respectful and courteous to one another.
- Helmets must be on correctly, and done up securely before leaving Transition.
- TRYathlete's must take care on corners particularly if conditions are wet.
- When biking keep left unless overtaking. Remember that the bike course is like a normal road, and normal road rules apply.
- Your official event T-shirt must be worn during the ride and run.
- Familiarise yourself with the course – maps can be found on the Information boards located throughout the event arena.
- Please do not move other TRYathlete's bikes or gear in the Transition area at anytime.
- TRYathletes must wear shoes for both the bike and run leg of the TRYathlon.
- Write your bib number on your right forearm and right shin.

## TIPS FOR A CORRECT FIT

1. Position the helmet so that it protects your forehead (1-2 fingers above your eyebrows)
2. Secure the clip on the strap under your chin and tighten the strap up so you can still fit one finger under it to make sure it isn't too tight.
3. The plastic clips on each side of the strap should be slid up to make a triangle that meets just below your ears.
4. The helmet should fit your head so that it touches on all sides and can't be slid forwards, backwards or side to side. Use the extra pads supplied with your helmet to ensure a snug fit.
